

# Helping Out

This half term, the children have been learning about the families which they belong to, including their own family, our school family and The Church family. Families often help each other. Please help your child to think and reflect on this activity. If you do not have a printer, please use any suitable paper that you do have for this activity. Or complete it on a whiteboard, chalkboard or using ICT equipment.

Draw some of the people who help you. If you can, write what they do.

Draw and/or write some of the ways that you help others.

Why is helping each other a good idea? Write what you think..
