

# All about the Number 18

## Home Learning Challenges

# 18

Find the robot on the sheet. He is thinking of the number 18. Can you write the numbers that are one more and one less than 18?

Make a rainbow 18. Ask a grown-up to write the number 18 and then trace over the number in red, followed by all the other colours in the rainbow.

Esah's mum gives him 9 pennies. His grandad gives him another 9 pennies. How many pennies does he have altogether?

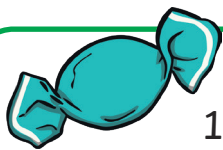

I have 18 sweets and my friend only has two.

How many do we have altogether? How can you work it out? Can you draw a picture to show the answer?

Can you hop 18 times? Can you clap 18 times? What about star jumps? Make sure you say each number for each action.

Can you see the number 18 on this page? Can you trace over the numbers at the bottom of the page? You could try writing the number 18 on your own too.
